Liberals lead in Québec

Toronto, June 14th, 2019 – In a random sampling of public opinion taken by The Forum Poll™ among 1471 Québec voters 18 or older, a third (32%) say they would vote for the Liberals if a federal election were held today.

A quarter (25%) say they would support the Conservatives, one-fifth (18%) say they would support the BQ, 1 in 10 (10%) support the Green Party, while a similar proportion (9%) support the NDP.

Few support either the PPC (4%) or another party (2%).

Respondents most likely to say they would vote for the Liberals if a federal election were held today include females (39%), the least wealthy (40%), with an income of \$40,000 to \$60,000 (37%), \$60,000 to \$80,000 (36%), \$100,000 to \$250,000 (35%), and those living in Montreal (38%).

Quebec says the environment should be the priority of political parties

A third (34%) of respondents say the environment should be the priority of political parties in federal elections, with one-fifth saying it should be the economy (20%), and another fifth (19%) saying it should be Health.

Respondents who are most likely to say the environment should be priority are those aged 34 and younger (49%), females (38%), and those living in Montreal (38%).

Quebec is Most Confident in Trudeau

A quarter (26%) of respondents say they have the most confidence in Justin Trudeau. Respondents most likely to say they have the most confidence in Justin Trudeau include females (29%), and those living in Montreal (32%).

“A third of Quebecers support the Federal Liberals,” said Dr. Lorne Bozinoff, President of Forum Research. “They also have the most confidence in Trudeau's leadership, which bodes well for a Liberal party that needs a strong showing in Québec for any hope at re-election. The environment is clearly on the minds of Québec, though, so the other parties can't let the Liberals dominate this issue...”

Methodology

The Forum Poll™ was conducted by Forum Research with the results based on an interactive voice response telephone survey of 1471 randomly selected Canadians within Québec. The poll was conducted from June 11-June 12, 2019.

Results based on the total sample are considered accurate +/- 3%, 19 times out of 20, measured as the average deviation across all response categories. Subsample results will be less accurate. Margins of error for subsample (such as age, gender) results are available at www.forumresearch.com/samplestim.asp

Where appropriate, the data has been statistically weighted by age, region, and other variables to ensure that the sample reflects the actual population according to the latest Census data.

This research is not necessarily predictive of future outcomes, but rather, captures opinion at one point in time. Forum Research conducted this poll as a public service and to demonstrate our survey research capabilities. Forum houses its poll results in the Data Library of the Department of Political Science at the University of Toronto.

With offices across Canada and around the world, 100% Canadian-owned Forum Research is one of the country's leading survey research firms. This Forum Poll™ and other polls may be found at Forum's poll archive at forumpoll.com.

Top2/Btm2 (or 3 or 4 where applicable) refers to the combined results of the most answered positive and negative responses:
