Federal Conservatives and Liberals Tied

Singh sees big bump in favourability, Scheer, a little one

Toronto, September 21st – In a random sampling of public opinion taken by The Forum Poll™ among 2449 Canadian voters, amongst those decided and leaning, a third (33%) say they would support the Conservatives if the election were held today, while a similar proportion (33%) say they support the Liberals.

1 in 10 (11%) say they would support the Greens, while a similar proportion (11%) say they would support the NDP.

About 1 in 20 (6%) say they would support the BQ, while a similar proportion would support the PPC (5%). Few (2%) are supporting another party.

If these results were projected into seats, we expect a minority parliament with the Liberals holding 147 seats and with the Conservatives holding 144.

The NDP would win 20, the BQ would win 22, and the Green would win 5.

Trudeau sees approval from more than a third, disapproval from more than half

Justin Trudeau sees approval from more than a third (37%) and disapproval from more than half (54%), with about 1 in 10 (9%) saying they don't know. His net favourable score is -17 (approve-disapprove).

Scheer sees approval from a quarter, and disapproval from half

A third (31%) say they approve of Andrew Scheer, up slightly from a quarter (July 20: 2019 27%).

Half (50%) say they disapprove. One-fifth (19%) say they don't know. Scheer's net favourable score is -18 (approve-disapprove).

"Despite their proliferation in the media, the pictures of the Prime Minister haven't severely impacted the Liberals yet," said Dr. Lorne Bozinoff, President of Forum Research. "Of course that could change with four weeks of campaigning left to go, however. What should concern the Liberal campaign is the considerable improvement in the approval numbers of Jagmeet Singh. The Liberals are the primary beneficiaries of a weak NDP, and if Singh's approval continues to rise, we can expect to see NDP support rise with it."

Methodology

The Forum Poll™ was conducted by Forum Research with the results based on an interactive voice response telephone survey of 2449 randomly selected Canadians across the country. The poll was conducted September 19-21, 2019.

Results based on the total sample are considered accurate +/- 3%, 19 times out of 20, measured as the average deviation across all response categories. Subsample results will be less accurate. Margins of error for subsample (such as age, gender) results are available at www.forumresearch.com/samplestim.asp

Where appropriate, the data has been statistically weighted by age, region, and other variables to ensure that the sample reflects the actual population according to the latest Census data.

This research is not necessarily predictive of future outcomes, but rather, captures opinion at one point in time. Actual results depend on the parties' ability to get their voters out. Forum Research conducted this poll as a public service and to demonstrate our survey research capabilities. Forum houses its poll results in the Data Library of the Department of Political Science at the University of Toronto.

With offices across Canada and around the world, 100% Canadian-owned Forum Research is one of the country's leading survey research firms. This Forum Poll™ and other polls may be found at Forum's poll archive at forumpoll.com.

Top2/Btm2 (or 3 or 4 where applicable) refers to the combined results of the most answered positive and negative responses:
