"The Prime Minister's stance on Saudi Arabia sees approval from Canada's progressive parties, with big numbers of Liberal, NDP, and Green voters approving," said Dr. Lorne Bozinoff. "These are exactly the kinds of voters Justin Trudeau will need in the face of a strengthening Conservative party under Andrew Scheer."

Methodology

The Forum Poll™ was conducted by Forum Research with the results based on an interactive voice response telephone survey of 1777 randomly selected Canadian Voters. The poll was conducted August 10-12, 2018.

Results based on the total sample are considered accurate +/- 3%, 19 times out of 20. Subsample results will be less accurate. Margins of error for subsample (such as age, gender) results are available at www.forumresearch.com/samplestim.asp

Where appropriate, the data has been statistically weighted by age, region, and other variables to ensure that the sample reflects the actual population according to the latest Census data.

This research is not necessarily predictive of future outcomes, but rather, captures opinion at one point in time. Actual results depend on the parties' ability to get their voters out. Forum Research conducted this poll as a public service and to demonstrate our survey research capabilities. Forum houses its poll results in the Data Library of the Department of Political Science at the University of Toronto.

With offices across Canada and around the world, 100% Canadian-owned Forum Research is one of the country's leading survey research firms. This Forum Poll™ and other polls may be found at Forum's poll archive at www.forumpoll.com

Top2/Btm2 (or 3 or 4 where applicable) refers to the combined results of the most answered positive and negative responses:
