FOR IMMEDIATE RELEASE

Jeffrey leads convincingly in Brampton mayoral race

7-in-10 disapprove of Susan Fennell

TORONTO APRIL 28th, 2014 – In a random sampling of public opinion taken by the Forum Poll™ among 822 voters in the city of Brampton, 7-in-10 voters disapprove of the job Susan Fennell is doing as mayor (71%), and this is stable since the last time polled this question (March 30 - 72%). Disapproval is especially common to males (78%), the wealthiest (\$80K to \$100K - 82%, \$100K to \$250K - 84%), the best educated (post grad - 77%), those with a British Isles ancestry (79%) and past provincial PC voters (77%).

Linda Jeffrey leads all mayoral contenders

In a two way match-up with Fennell, former Ontario cabinet minister Linda Jeffrey outguns Susan Fennell by a factor of three (60% to 23%).

When John Sanderson is added to the mix, Jeffrey's vote share drops to 4-in-10 (39%), but Sanderson (26%) and Fennell (18%) cannot catch her.

In a match where Gurratan Singh is tested against the two leading contenders, Jeffrey wins with half the vote (51%) to one fifth for Fennell (20%) and just one tenth for Singh (9%). Curiously, Singh does no better among those of South Asian ethnicity (7%) than he does in general, but fares much better among Asians (22% - caution, small base size).

When all four of these candidates are matched, Jeffrey wins with well more than a third of the vote (37%), compared to one quarter for John Sanderson (24%), less than a fifth for Fennell (17%) and less than a tenth for Singh (8%).

Strong disagreement with official use of city credit cards for entertainment

The vast majority of residents say city officials shouldn't be allowed to expense entertainment of their city-issued credit cards (80%), and just one tenth agree this is permissible (12%).

Few believe mayor's assurances on spending

Fully three quarters disagree with the mayor that "there is no scandal in Brampton" and that the affair is a creation of the media (74%), and just one seventh agree with the mayor on this point (14%).

- The vast majority of residents say city officials shouldn't be allowed to expense entertainment of their city-issued credit cards (80%)
- Fully three quarters disagree with the mayor that "there is no scandal in Brampton" and that the affair is a creation of the media (74%).
- "The essentials of this race have now settled into place. Linda Jeffrey is the preferred candidate, and she appears to be set to neatly fillet the now irredeemably unpopular Mayor Fennel, with a little help from John Sanderson, should he choose to run. In the meantime, the spending controversy which bedevils Mayor Fennel isn't going away, and her constituents are pinning it directly on her. This is not a good way to head into a six month election campaign," said Forum Research President, Dr. Lorne Bozinoff.

Most see Mayor Fennell at fault for spending controversy

Six-in-ten residents think Mayor Fennell herself as being at fault for the spending controversy in Brampton (60%), and just one tenth or fewer blame anyone else (city employees - 10%, media - 7%, card issuers - 6%, someone else - 6%).

Many think crimes were committed in spending controversy

As many as 6-in-10 Brampton voters think crimes were committed in the recent spending controversy (60%), and fewer than one quarter think this is not the case (23%). Close to one fifth have no opinion (17%).

Methodology

The Forum Poll™ was conducted by Forum Research with the results based on an interactive voice response telephone survey of 822 randomly selected Brampton residents 18 years of age and older. The poll was conducted on April 27th, 2014.

Results based on the total sample are considered accurate +/- 3%, 19 times out of 20. Subsample results will be less accurate. Margins of error for subsample (such as age, gender) results are available at www.forumresearch.com/samplestim.asp

Where appropriate, the data has been statistically weighted by age, region, and other variables to ensure that the sample reflects the actual population according to the latest Census data.

This research is not necessarily predictive of future outcomes, but rather, captures opinion at one point in time. Forum Research conducted this poll as a public service and to demonstrate our survey research capabilities. Forum houses its poll results in the Data Library of the Department of Political Science at the University of Toronto.

With offices across Canada and around the world, 100% Canadian-owned Forum Research is one of the country's leading survey research firms. This Forum Poll™ and other polls may be found at Forum's poll archive at www.forumresearch.com/polls.asp
